ABSTRACT

This workshop was held for the purpose of training selected staff members of the Ohio Module Field Unit of the Appalachian Adult Basic Education Demonstration Center (AABEDC). Twelve persons, six teachers and six paraprofessionals, were selected to participate in the workshop. While their specific jobs vary, all will be concerned with utilization of programmed instruction materials, interview counseling and referral, and administration of placement and achievement tests or surveys. Follow-up orientation and training will be provided on a local level and will relate to the individual's identified needs. This report concerns itself with orientation and training provided during the three-day workshop held at Piketon High School on August 25, 26, and 27, 1969. (CK)

PREFACE -

This workshop was held for the purpose of training selected staff members of the Ohio Module Field Unit of AABEDC.

These staff members will be assuming new roles in the project during the on-coming school year. Therefore, it was deemed essential that their duties or responsibilities be clearly defined before beginning work. It was also determined that training in specific skills, techniques, and procedures would be vital to their effectiveness in the operational and data gathering facets of the on-coming Demonstration-Research Project.

Twelve persons, six teachers and six paraprofessionals, were selected to participate in the workshop. While their specific jobs vary, all will be concerned with utilization of programmed instruction materials, interview counseling and referral, and administration of placement and achievement tests or surveys.

Orientation to duties, skills, and techniques relating to their specific jobs or assignments was given in sub groups. Follow-up orientation and training will be provided on a local level and will relate to the individual's identified needs.

This report will be concerned with the orientation and training provided during the three-day workshop held at Piketon High School on August 25,26, and 27, 1969.

Max W. Way, Project Director,
Ohio Module Field Unit, AABEDC.

WORKSHOP EVALUATION

I. General Aims and Objectives

1. Each participant will be able to adequately define his role, duties, and responsibilities in the Ohio Module Field Unit's applied research project.

2. Each participant will be able to describe and identify programmed or self-instruction curriculum materials and demonstrate an understanding of the philosophy behind their utilization.

3. Each participant will be able to conduct an initial interview for the purpose of explaining the program and enrolling new students.

4. Each participant will be able to administer, score, and evaluate placement, progress tests, and achievement batteries related to the program.

5. Each participant will acquaint himself with the cooperating agencies, their service, and referral procedures.

6. Each participant will be able to conduct an individual counseling session and provide educational, personal-social, and vocational information and referral.

7. Each participant will develop a longitudinal programmed instructional curriculum related to specific beginning levels, progress evaluation, and student needs.

8. Each participant will demonstrate effeciency in developing and maintaining student records and reporting procedures related to this project.

9. Each participant will develop a notebook, for reference, which will include instructions and information related to his specific duties and responsibilities in this project.

II. Specific Aims and Objectives

1. Each participant will describe his role, duties, and responsibilities as a member of the Ohio Field Unit Staff.

2. From a variety of instructional materials, the participants will select at least five items in the area of reading and five in mathematics that can be classed as programmed or self-instruction curriculum materials and will explain

procedures used by the student and the method of checking progress.

3. Each participant will, in a practicum situation, conduct an initial interview, explain the ABE program, and provide an orientation to the use of programmed instruction curriculum materials.

4. Each participant will administer, score, and evaluate the various types of placement instruments used with programmed instruction and demonstrate proficiency in placement in beginning programs.

5. Each participant will administer, score, and profile one or more forms of the achievement battery (TABE) to be used in pre and post testing.

6. Each participant will administer, score, and evaluate two or more types of progress and unit tests and provide program recommendations related to the outcomes.

7. Each participant will become familiar with the scope and sequence of materials available to them and will be able to develop a longitudinal course of study related to a variety of student needs.

8. In a practicum or role playing situation, each participant will conduct a counseling session and provide educational, vocational or personal-social counseling, information, or referral as the situation indicates.

9. Each participant will complete record forms, compile a student record folder, and demonstrate efficiency in reporting data gathered.

10. Each participant will compile all prepared materials plus notes and practicum work in a notebook for future reference.

V. Evaluation

A. Program Director's Evaluation

Aims and objectives of this workshop were derived as a result of problems or weaknesses found in the conducting of a Pilot Study in four ABE centers.

Selection of the Ohio AABEDC staff personnel to participate in the workshop was made through screening of ABE teachers and possible candidates for the paraprofessional positions in the cooperating districts.

A. Program Director's Evaluation Cont'd.

All paraprofessionals selected are former ABE students and are familiar with the population and geographic areas that they will serve.

All workshop participants were evaluated in accordance with the general and specific aims and objectives established for this workshop. Results were rewarding and complimentary.

B. Participant's Evaluation

1. Pre and post Evaluation by the participants.

The criteria for evaluation by the participants were taken from the aims and objectives stated in parts I and II.

A facsimile of the pre workshop administration of the rating scale with responses is included in appendix C.

A facsimile of the post workshop administration with results in included in appendix D.

Responses were assigned values of five (5) for superior, four (4) for above average, three (3) for average, and two (2) for below average in order to graphically present the change in attitude and competency as a result of this workshop.

2. Participant's Evaluation of Workshop

Presentation and Facilites.

The participants were complimentory on evaluation concerning the presentation, format, and physical facilites.

Personal comments indicated that it was very practical and related directly to duties they would be performing.

Further comments from professionals indicated that there was a desire to conduct more of this kind of workshop.

A facsimile of the questionnaire can be seen in appendix E.

3. Workshop Trainer's Evaluation

Workshop trainers rated the participants in accordance with the established aims and objectives using the same rating instrument as used by the participants. Ratings were based on demonstrated proficiency or response in the various areas.

Each participant was rated individually and ratings for each person averaged.

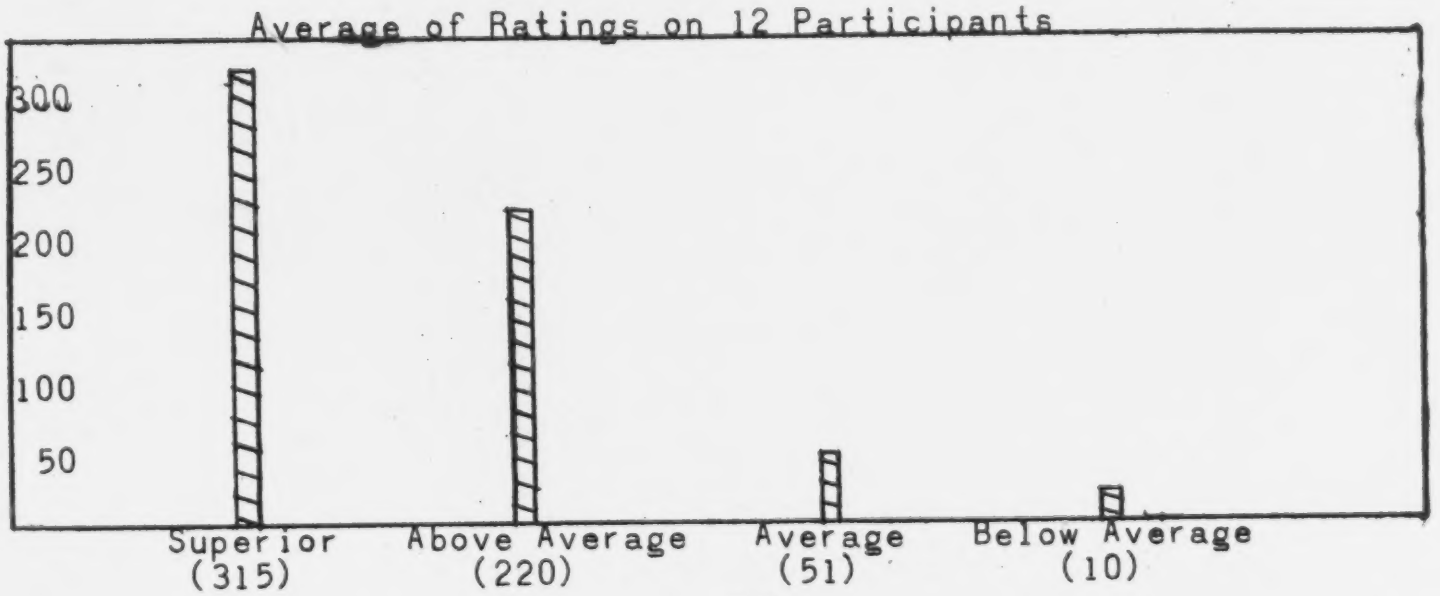
A facsimile of this composite can be seen in appendix F.

Workshop trainers stated that the group was very cooperative and reacted positively to all the activities.

Trainers further indicated that the practicum or "learn by doing" approach proved to be a highly successful training technique and allowed participants the opportunity to assist each other in the learning process.

FIGURE 11

TRAINER POST WORKSHOP RATING



VI. Summary and Conclusions

Based on the subjective support of the trainers and the participants, results of the rating instruments, and the observable changes in performance, this was a very successful workshop.

The specific aims and objectives were covered precisely and each participant demonstrated competency in a majority of these areas. It is to be noted that time was a limiting factor and that a high degree of proficiency on the part of all would have required considerably more time and involved a much greater expenditure of monies.

Those participants who were identified as needing additional training or experience in specific areas will have such training or experience provided for prior to the start of the program operation.

It was determined that only one person needed follow-up training and/or experience in more than one of the specific areas.

It was concluded that by the operational date, the participants will be highly qualified to function in their various roles in the Ohio Field Unit of the AABEDC thus making the result of the applied research more valid.
